

Young Investigator Award Application

We are accepting applications by **independent Young Investigators** to be considered for an oral presentation at the first SFN Marmoset Bioscience Symposium, October 17th 2019, in Chicago, IL. Applications are due by **July 1st, 2019**. Selection will be based on the promise, productivity and creativity of the research. The selected candidate will give a 30 min talk at the meeting. Eligibility and submission requirement information are listed below.

Candidates **MUST** meet the following criteria:

1. Be a postdoctoral fellow or a non-tenured faculty within 2-10 years of receiving their PhD and demonstrating research independence
2. Work with marmosets in any area of biological research, broadly defined, including, but not limited to, neuroscience, cognition, aging research, neuroendocrinology, genetics

Candidates will be evaluated according to: the promise, productivity and creativity of the research, which will be assessed through publications (in press or published), current funding source(s), honors (e.g., invited talks) and a letter of reference.

Applications **MUST** include:

- Current CV (indicating start date of faculty or equivalent appointment, a list of invited talks or presentations, and current funding source(s))
- Abstract (body text up to 400 words) of a 30 minute talk on the research and its broader implications for bioscience
- One letter of reference from a senior scientist familiar with the work. The candidate should arrange to have the letter sent by the deadline to the contact below

Please email your application **as a single PDF** to marmohub@gmail.com
The letter of reference may be sent separately
